PADDY WAGON

Padding Press

PADDY WAGON

Designed for ease-of-use, the **Paddy Wagon** padding press is the ideal solution for portable, affordable, high-production padding. It reduces the job of padding to a simple three-step process: loading, securing and padding. The machine is designed to eliminate the mess associated with pad protection. It has integrated shelves which store padding equipment, and also double as a spill apron to catch excess padding compound. The table edge and clamping bar are designed to reduce compound build-up, and excess compound can be easily removed with a padding knife. With its durable welded tubular steel construction and heavy-duty castors, the Paddy Wagon is fully portable and effortlessly fits through doorways, making it simple to wheel the unit to the cutter, folder, or wherever the action is.

Finishing Applications in pads and tear-off books.

Specifications

	Paddy Wagon
Max. Lift Width	23-1/2"
Max. Lift Height	31"
Lift Depth	3" to 17"+
Sample Capacity	15,000 8-1/2" x 11" 20# bond / 15,000 A4 75g/m2
Pass-Through Door Size	32"
Overall Base Area	30" x 30"
Net Weight	100 lbs
Shipping Weight	120 lbs
Warranty	6 months limited warranty
