ROLL@Coil

Electric Coil Inserter

ROLL@Coil

The **Roll@Coil** electric inserter makes coil inserting incredibly fast and easy, reducing costs by saving time. This compact machine features an electric roller inserter, operated by foot pedal control allowing the operator free use of both hands to hold the document as well as full control of the rotating roller. A built-in diameter selector identifies the best coil diameter to be used for the thickness of the document while a pitch identifier can be used to confirm that the coil pitch matches that of the punched document. Designed to work as a stand-alone unit, it is small enough to mount on one of our modular binding punches. The **Roll@Coil** plastic coil inserter is one of the most economical and robust coil inserters on the market and suits small to mid-sized workloads.

Finishing Applications

in Binding Centers, Educational, and Office Settings

Specifications

up to 7/8" Wide

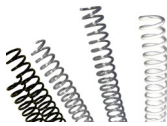

Binding Capacity
up to 7/8" (22mm)

	ROLL@Coil
Inserting	Electric
Binding Capacity	up to 7/8" (22mm) Coil
Built-Ins	Coil Diameter Verifier / Coil Diameter Selector (Based on Document Thickness) / Pitch Identifier / U-Shaped Alignment Channel (Conforms Spine of Larger Diameter Documents to Coil's Shape)
Functions	Foot Pedal Operation
Weight	18 lbs
Warranty	1 Year Warranty

Skandacor™ is proud to offer legendary equipment that works brilliantly with our lineup of BINDpro™ coil.
