On-Demand, Professional, Compact  
Specialty Finishing Laminators with Flying Knife

# PODTopic-380F and AUTO

The **PODTopic-380F** and **PODTopic-380 AUTO** single-sided laminators and specialty finishing systems that meet the needs of on-demand print shops. These two standard configurations offer either a semi-automatic feeder, or a deep pile fully automatic feeding head. Their cutting system features a **flying knife sheet separation system** that effortlessly separates NYpro™ and other hard-to-burst laminates, making these machines perfect for the short-run publisher. Both models have an adjustable de-curling system which creates consistent flat output. These laminators are optimized for quick changeovers and SLEEKpro™ finishing technology. SLEEKpro™ allows for variable data foil stamping, spot varnishing and holographic effects on digital outputs. The PODTopic-380 is the professional and economical choice for on-demand lamination and specialty finishing.

**Finishing Applications** in Stationery, Advertising, Packaging, Publishing, Security, Specialty Finishing (SLEEKpro™) and much more.
