DIGIFAV B2

The **DIGIFAV B2** professional industrial laminator is perfect for both offset and digital prints. It excels in even the most challenging printing situations and was designed with the operator in mind. It combines advanced technology with user-friendly features like one-button startup (which allows operators to start the machine with just one button), and a graphical icon-based user interface. It also supports SLEEKpro™ finishing metallic foils, as well as clear and hologram finishes.
