BINDpro Cascade 12MC

Manual Modular
Punch

BINDpro Cascade 12MC

The **BINDpro Cascade 12MC** manually operated, modular punching machine comes at an affordable price tag and provides the binding options needed for everyday tasks. This sturdy, all-metal machine can handle up to 25 sheets of 20lb paper, and using the same punch, you can switch from a coil binding job to a wire or comb binding project. While the machine comes with 1 die of your choice, additional interchangeable die sets allow you to switch punch patterns within seconds, without additional tools. The high-quality precision die sets boast fully disengageable pins, allowing you to use any paper size without creating partly formed holes at the ends of each sheet. The BINDpro Cascade 12MC is a stand-alone binding punch that can be complemented with a coil inserter, comb opener, and wire closer for a complete binding package.

Finishing Applications in Binding Centers, Printing Centers, Educational and Office

Available Dies

3:1 Wire (Rectangle)

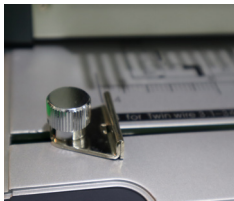

2:1 Wire (Rectangle)

4:1 Coil (Round)

Comb (Rectangle)
