HANDY PADDER

Padding Press

HANDY PADDER

The **Handy-Padder** is a heavy-duty, all steel construction padding press that fits onto any table or workstation, and allows each step to be completed in one single setting. It is designed to meet the lower volume padding needs of a multi-faceted business, and has multiple features that work together to increase productivity. The eight-degree tilted swivel table eliminates jogging, while a clamping bar and self-locking, quick release clamps secure the stock during padding. The turn-style base rotates 360 degrees to allow the operator to load, clamp and pad from a single position. This unit also features an extended metal stabilizer that prevents flipping when it's fully loaded.

Finishing Applications in pads and tear-off books.

Specifications

	Handy Padder
Max. Lift Width	17-3/4"
Max. Lift Height	16"
Lift Depth	4" to 13+"
Sample Capacity	8,000 8-1/2 x 11" 20# bond
Overall Height	26-3/16"
Overall Length	17-1/32"
Overall Base Area	20-15/16"
Net Weight	50 lbs
Shipping Weight	55 lbs
Warranty	6 months limited warranty
