# SH CRF-362

The Standard Horizon **CRF-362** Creaser/Folder has been designed to handle the unique requirements of creasing and folding digital color output across a wide range of light and heavy weight stocks, coated or uncoated. The **CRF-362** stands alone in the market as the only machine that offers both positive and negative creasing via separate tools in one pass. It is also the only creaser/folder that incorporates sheet by sheet registration. Creasing and folding is done in one pass for easy and accurate processing of many applications.

**Finishing Applications** such as Menus, Greeting Cards, Book Covers, Marketing Collateral and More.
