Rotary Die Cutter

SH RD 4055DMC

The **RD-4055DMC** rotary die cutter with dual magnetic cylinders is designed to simultaneously die-cut and crease/score short-run product from both sides of the sheet. In addition to die cutting and creasing/ scoring, it can also perforate, slit, hole punch and round corner in one process for digital and offset printed sheets. The **RD-4055DMC** allows the operator to run male and female dies simultaneously for clean, sharp creases without cracking or slitting. Boasting a repeat register function which allows multiple-up applications from a single-up die to minimize costs. The **RD-4055DMC** handles complex creasing patterns and light packaging applications with ease.

Finishing Applications in Tags, Business Cards, Notes, Stickers, Hang Tags, Cards, Packaging, Coasters, Bottle and Merchandise Labels, Pocket Folders, Unique Mailers, and more.
