TORNADO AutoPunch EX

The **Tornado AutoPunch EX** by Rhin-O-Tuff® is an industry breakthrough system that uses BDT Print Media's advanced media handling technology to automatically fee, collage, punch and deliver offset book stacks ready for binding in a single platform. The system will save binding service providers an average of 40% in process efficiency, dramatically reducing overall costs. The **Tornado AutoPunch EX** handles the widest range of media in the industry, delivering unparalleled flexibility and enables concurrent binding operations. The system includes easy programmable job setup, monitoring and changeovers making it perfect for on-demand, short runs and high-volume production alike.

Finishing Applications

in Binding and Print Shops.
