EQUIPMENT

2600 TCB

Dual Sided Crimping Unit

2600 TCB

The **TCB - Total Cut & Bend** is a desktop machine designed to cut and crimp the full range of coil diameters from 6mm to 50mm with the same crimping heads! This operator friendly machine uses simple dial adjustments for set up and size changeovers, without the need of tools. A longer crimp is achieved as the coil diameter increases reducing the risk of coil unwinding from the larger punch holes. The TCB is also easily integrated with most coil insertion equipment.

Finishing Applications in Mid-sized Print Centers, and Offices.

Specifications

Max. 17"

40 lbs.

110 V Single phase

2600 TCB	
Min/Max binding edge	5.5" - 17"
