

RET-1652 Electric Trimmer

The RET-1652 is a high-quality electric trimmer that is the perfect fit in Sign and Print Shops. This electric trimmer utilizes a high-speed bi-directional rotary blade to reduce bottleneck of trimming finished prints by hand. You can count on the RET-1651 for smooth and clean cuts on a wide variety of flexible substrates, such as signs, posters and laminated materials.

Features

Waste catcher collects scrap trimmings to reduce mess and speed clean up

LED backlighting along cutting edge creates accurate alignment

Built-in safety covers is designed to prevent user from touching rotary blade
