Manual Guillotine Cutter

# FINISHpro MANUAL

The **FINISHpro Manual Guillotine** is a quality, cost-effective solution for all light-production cutting needs. This manual ream guillotine, which has a cutting width of 18.7" and cutting depth of 19.1", is capable of cutting a full ream of paper at once. It features a wheel-driven paper clamp that allows for additional stack pressure and a cushion-ended, steel hand-lever for a smooth, even cutting action. The back gauge is easily positioned by using the front-mounted hand crank while a ruler located on the side gauge helps align the cut location. Safety is a key feature of the FINISHpro Manual Guillotine. Protective safety shields are located on the front and rear table and a safety lock ensures the blade cannot be lowered if the front cover is in the open position. It comes complete with a resharpenable blade, a cutting stick, and the stand. Our affordable FINISHpro Manual Guillotine is ideal for small print shops, schools and copy shops.

**Finishing Applications** in Stationery, Advertising, Publishing, Security, and much more.

## Specifications
