FINISH^{pro} DX 1531

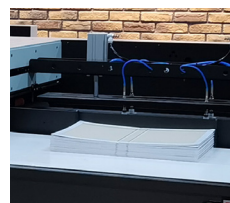

Automatic Case Making / Sheet Duplexing Machine

FINISHpro DX 1531

The **FINISHpro DX 1531** is designed for medium-scale book manufacturers and print shops, offering a highly efficient solution for producing hardcovers, sheet-to-sheet duplexing and more. It features automatic feeding, positioning, and anti-skewing technology, ensuring flawless alignment of boards, center strips, and cover sheets. The integrated hot-melt gluing station provides smooth, non-blocking performance with auto-cleaning technology, while fully automatic job changeovers allow for quick transitions between different sheet sizes. With user-friendly controls, this machine requires just one operator and offers a multilingual software interface for easy operation. Its compact design minimizes the required floor space, making it a perfect fit for busy production environments. Optional add-ons, such as the Finished Case Stacker/Collector with a foldable trolley, offer additional convenience for streamlined handling and storage.

Finishing Applications Binding Centers,
Printing Centers

Specifications

Max 15.7" x 31.5"

Up to 5 pcs/min

Touch Screen

	FINISHpro DX 1531
Finished book size	Min 6.3" x 11.8" 160 mm x 300 mm Max 15.7" x 31.5" 399 mm x 800 mm
